Create your Provider Account in CE Broker today!

CE Broker is the official CE tracking system of the Oklahoma Board of Medical Licensure and Supervision. There is no mandatory cost, though Providers must have an account and register courses on the platform.

Provider Registration Requirements | When registering as a board-approved CE Provider, CE Broker will lead you through a simplified registration process. You will be asked to submit a CE provider profile and primary contact information.

Rule approved CE Providers are required to submit proof of accreditation/approval by the AOTA, OOTA, or NBCOT.

How to create your CE Broker Provider Account

1 | Visit **cebroker.com/providers**

2 | Choose **Oklahoma** from the drop down menu and click **Get Started**.

3 | Select the **Oklahoma Board of Medical Licensure and Supervision - Occupational Therapy**, review the application fees and requirements, and click **Register**.

If you already have a CE Broker account, follow **these simple steps** to get approval from the Oklahoma Board of Medical Licensure and Supervision.

Course Application Requirements | When submitting a course application, it will route directly to the board for approval. Once the course has been approved by the Board you will receive notification. The course will then be listed in the provider account and providers can report course completions. AOTA, OOTA, and/or NBCOT Accredited Providers are rule-approved and those courses will not route to the Board for approval.

Course completions should be reported within 30 days of the date of completion.
