SUMMARY:

The proposed revisions make significant amended changes and repeal in the level of supervision of PAs. Oklahoma physicians who supervise Physician Assistants (PA) would no

OAR/cert CW

longer be required to be on-site at least one-half day per week. Supervising physicians would have more autonomy in determining the scope of services offered by PAs. The Rules would allow a physician to supervise up to four (4) physician assistants instead of the previous two (2).

The Rules repeal numerous provisions on supervision by site location, removal of the drug formulary and PA protocols and leave those decisions up to the supervising physician, the PA and the PA Advisory Committee. The Rules redefine the section on licensure qualifications, prescriptive authority, and issuance of a temporary license to practice. Reporting requirements of the continuing education for renewal will now go through the Oklahoma Academy of Physician Assistants at a cost to the PA applicant. The rules update and expand the language and grounds for discipline.
