

Physical Therapy Advisory Committee

Minutes

The Physical Therapy Committee of the Board of Medical Licensure and Supervision met on July 20, 2018 in accordance with the Open Meeting Act. The meeting was held at the office of the Board, 101 NE 51st Street, Oklahoma City, Oklahoma. Advance notice of this regularly scheduled meeting was transmitted to the Oklahoma Secretary of State on October 10, 2017, and posted on the Board's website on July 18, 2018 at 3:07 p.m. in accordance with 25 O.S. § 311.9.

Members Present:

Next the Committee considered the pre-reviewed continuing education units ("CEUs"). Ms. Hinkle moved to approve the pre-reviewed continuing education units as recommended by the review subcommittee. Mr. Ward seconded the motion and the vote was unanimous in the affirmative. *(See Attachment #1)*

Mr. Ward moved to table the pre-reviewed continuing education units as recommended by the review subcommittee. Ms. Hinkle seconded the motion and the vote was unanimous in the affirmative. *(See Attachment #2)*

Mr. Ward moved to deny the pre-reviewed continuing education units as recommended by the review subcommittee. Ms. Hinkle seconded the motion and the vote was unanimous in the affirmative. *(See Attachment #3)*

Following the motions and votes above, the Committee determined that two boxes of CEUs still needing review remain in the possession of David Haynes. Reji Varghese stated that going forward, the boxes of CEUs will be couriered to and from the review subcommittee. Each box will be numbered and will contain a list that can be sent electronically between staff and the review subcommittee.

Committee Chair reordered the agenda for the video web presentation of Heidi Herbst Paakkonen, Federation of State Boards of Physical Therapy ("FSBPT"), Continuing Competence Product Manager. Ms. Paakkonen demonstrated the aPTitude program from the licensee perspective as well as the board staff's perspective. The system is free of charge and there are no additional fees to the licensees or the jurisdiction. FSBPT's board opted to source the funding for the system. If providers use the ProCert certification program, that generates a small amount of revenue which helps support the aPTitude program.

Ms. Paakkonen stated that providers do not need to use ProCert to publish their earned activities. If an Oklahoma licensee has searched for a particular activity and cannot find the information, that licensee may enter the activity themselves. Currently, there are not a lot of licensees using the program.

If Oklahoma chooses to use the aPTitude system, FSBPT will work in conjunction with the state to get the licensees trained on the program. The Committee could determine what documents they would like to see in support of each activity. Ms. Hinkle stated she could see this as an option for licensees to use and to make the shift to aPTitude at some point in the future at the end of a compliance period. There was mild concern that licensees may add activities that may not have been approved by the Committee.

Ms. Paakkonen advised that aPTitude has been fully implemented by Alabama, Georgia, and Mississippi, while Nevada and Hawaii are in the process of being implemented. Other states are promoting the program advising their licensees to use it and become familiar with it.

The program launched in mid- to late-2010 and all updates are handled in-house at FSBPT. You may log in at fsbpt.org/aptitude or continuingcompetence.org.

The Committee feels that Oklahoma's current audit process would be improved, but would need to look more closely at the program. Mr. Kelsey agreed that it looks like a good and promising alternative to the current continuing education process.

In closing, Ms. Paakkonen stated that Georgia is the best state to contact regarding using the program for audit purposes. The Committee thanked Ms. Paakkonen for her time.

Next, the Committee reviewed the most current rule revisions. The Committee requested information regarding complaints received since the new required ethics standards have been in place. It was determined that question may best be answered by the Oklahoma Physical Therapy Ethics Committee. The Committee inquired if the current IT system managed by the Oklahoma Medical Board will support the proposed rules. Reji Varghese will provide an IT presentation at the next meeting scheduled for September 28th. He advised that currently the program is not set up with a drop down menu for certain items that will be required under the rules, but if the proposed rules pass then they would be made available.

Following review, the Committee determined the following:

- Page 1:
 - The renewal and CEU compliance dates are correct as presented.
- Page 2:
 - In the first paragraph under "Approval of Providers" change "...the standard set forth in 435:20-9-3 of this section" to "..the standard set forth in 435:20-9-4(a) of this section."
 - (c) Change "The following organizations will be considered approved providers" to "The following organizations are considered approved providers."
 - (c)(2) Correct "Academy's" to "Academies" and add a comma directly following the corrected word.
- Page 3:
 - Re-letter "(d) through (j)" to "(c) through (i)".
- Page 4:
 - (a)(1)(A) change "and strength of evidence demonstrating references used within last 5 years" to "and sufficient evidence demonstrating relevancy, recency and consistency with current practice."
 - (b) Synchronous. Change "real time participation at a course" to "real time participation in a course."
 - (c) Change "Online educational and competency opportunities" to "Asynchronous education and competency opportunities" and bold the new heading.
- Page 5:
 - (4)(1) Correct typo in the word "Authorship".
- Page 6:

- (5) Advanced Training (A) Specialty Certification. Change "Achievement of a specialty certification related to" to "Achievement of an APTA or APTA Section-recognized specialty certification related to."

The current rule revision document with changes/corrections indicated above is attached hereto. (*See Attachment #4*)

There was some discussion regarding the PT Jurisprudence Examination. The Committee issued a Staff Directive for Reji Varghese to provide Mr. Schneider with a copy of the Order entered in district court in the case involving the PT Jurisprudence Examination. The Committee also issued a Staff Directive for Barbara Smith to place review of most recent rule revisions on the September 28th committee agenda.

*The committee took a brief recess.

Upon reconvening, Reji Varghese, Deputy Director, gave an update on the Physical Therapy Licensure Compact. Mr. Varghese advised that the Compact is pursuant to HB3336 which becomes effective November 1, 2018. The staff has begun interacting with the PT Compact Commission in order to have requirements in place prior to November 1st. There has been a meeting with TJ Cantrell, Compact Administrator, and the next meeting is scheduled for July 31st. To date, 21 states have Compact legislation enacted. Each applicant will pay the Commission a \$45.00 surcharge in addition to the state application fee. The benefit of a compact license is license portability.

Following Committee discussion, Ms. Hinkle moved to appoint Kelly Berry as Compact Delegate. Mr. Ward seconded the motion and the vote was unanimous in the affirmative.

Following Committee discussion, Mr. Ward moved to appoint Kelly Berry as Alternate Delegate for the Federation of State Boards of Physical Therapy Annual Meeting, October 25-27, 2018, Reston, Virginia. Ms. Hinkle seconded the motion and the vote was unanimous in the affirmative. Ms. Hinkle was previously elected as alternate delegate but will be unable to attend the meeting.

Next, Jennifer Ball reported on the Federation of State Boards of Physical Therapy Leadership Forum which was held earlier in July, 2018. Ms. Ball stated the meeting was quite informative and exciting. Several breakout sessions were offered including courses on continuing competence and the Compact. Ms. Ball became familiar with the oPTion program which is an online, on demand self-assessment program and she thought it might be something to look into for applicants who have been out of practice for a while. There were some questions regarding the collection of "minimum data set" which allows the reporting of specific data which is helpful for workforce information. Reji Varghese stated that regional data is not currently being collected on PTs in Oklahoma. He advised he would add the minimum data set survey to the PT renewal page in order to start collecting that data. No annual reports, i.e, setting forth how many complaints, etc., have been received, are required on PTs or PTAs but they can be provided to the Committee. Mr. Varghese will present this report at the next committee meeting.

There being no further business, Ms. Hinkle moved to adjourn the meeting. Mr. Ward seconded the motion and the vote was unanimous in the affirmative. The time was 12:22 p.m.
