

SEPTEMBER 16TH – 18TH, 2020 **OAPA CME VIRTUAL CONFERENCE**

This year's virtual format will consist of 3 days of virtual streaming CME sessions from September 16 – 18, 2020, and will include access to the On-Demand Library for three months after the live streaming event. If you can't attend or unable to participate in all the sessions during the live event you can still get Category I CME through the library at a time that is convenient for you.

Full conference registration includes three days of CME sessions, and access to the On-Demand Library for a total of 25 AAPA Category 1 CME. The conference will include the required CME hour on the topic of substance abuse for Oklahoma licensure.

The OAPA will log your earned CME hours with the Oklahoma Board of Medical Licensure & Supervision. Plus, we are participating in the NCCPA logging system. This means that you will have a link in your NCCPA profile so all you need to do is click on the sessions you have attended. This will provide you with a simpler, faster CME logging experience and your CME earned through this event will not be subject to an audit.

No travel expenses!
