Our mission is to confidentially help physicians with issues of addiction, alcoholism and disruptive behavior. Since 1983, the OHPP is an outreach program designed to provide confidential, informational support, monitoring and referral resources for medical and osteopathic doctors, dentists and veterinarians. Care is provided by medical colleagues who are sensitive to the special needs of program participants. The problems of chemical dependency, alcoholism and behavioral issues are common. The OHPP recognizes the importance of treating medical professionals in a confidential, individualized program. The OHPP continues to be a leader nationally in identifying problems, assisting in treatment, and returning to practice physicians who have suffered from substance abuse, dependency or behavioral issues.
